SANTA FE.

The Attorney Generalship.

Waldo appointed by the Court.

Santa Fe, Feb. 24.—In the District Court this morning Judge Fitch decided that the time of Judge Waldo, as attorney general, expired with the end of the session of the court and that the governor had no right to appoint him; thereupon, appointed Judge Waldo as attorney for the present term. Whether any further steps will be taken in the matter I can not say.

In the cases of the wholesale liquor dealers the jury found for the defendants, under the instruction of the court.

A. D. Robbins, of your town, is here taking an invoice of his furniture store.

Speaker Romero was here Monday, but left for Socorro yesterday. Amado Chavez, chief clerk of the council, accompanied him.

RAIL ROAD FREIGHT.

The railroad is bringing in large quantities of freight. Yesterday at the depot I saw a half dozen coaches intended to be loaded with lumber from here to Tucson. The coaches were loaded with lumber, and the freight was put in the coaches. The freight was put in the coaches.

Mr. Lake and Mr. Romero are here and as their freight is in a box car I suppose they will be at the depot. Mr. Lake is a person of surprise and pleasure both at the amount of freight business doing on the branch.

THE WEATHER AND OTHER MATTERS.

This is another sloppy, muggy day. Part of the fine day has been gloomy, the other bright and sunny.

No reward has been offered for the apprehension of Dick Moore, for the murder of Cady Moore; Frank O'Neil, for the murder of James Dinane, or Carl Armstrong, for the murder of Nathaniel Moore and Armstrong. Moore and Armstrong are both believed to be in this vicinity, have been located and would be arrested if a reward was offered.

A plan has been proposed to protect them in stripping government land of timber is to file a declaration of an intention to take a homestead and then destroy everything that will sell. A declaration is nothing and will not protect from prosecution.

A dry-anal-gamator is being constructed in Denver. The patentee claims great things for his machine. The machine is substantially built of iron and weighs about five thousand pounds. If such an institution could be made a success it would be worth a vast amount of money to the country. In many parts of the Rocky mountain countries some of the very best gold mines are inaccessible to water in sufficient quantities to operate them. Therefore the dry-anal-gamator has not proved a success and it is to be hoped that in this instance the obstacles so far encountered will be overcome.

The citizens of Prescott, Arizona held a large and enthusiastic meeting last week, to consider the proposition coming from the Atchison, Topeka & Santa Fe railroad management, with regard to opening a freight road from Prescott to the Rio Grande. The meeting was addressed by Mr. Fitch and Col. Haren, who advocated getting an appropriation from congress for the purpose of building a military wagon road over the Mogollon mountains.

Sockmen should begin to make arrangements for better water facilities than they have heretofore enjoyed. This can be attained by digging or boring wells. It would not only provide good water facilities, but new pastures could be opened up and thus the condition of stock greatly improved.

THE RAILROAD EXCURSION.

Proceedings of a Meeting Held by the Excursionists while En Route Home.

At a meeting of the excursionists while en route home near Trinidad, on the occasion of the completion of the trail from the Missouri river to Santa Fe, the following proceedings were had:

The meeting was called to order by Mr. Secretary R. H. who briefly stated its object to be the giving in suitable form of words appreciative expression for the many courtesies and kindnesses of the Atchison, Topeka & Santa Fe Railroad Company, and the authorities and civilians of the various cities and public institutions visited in the Missouri Valley from the 15th to the 20th days of February, 1880, inclusive. The organization was completed by the selection of Col. J. Francisco Chavez as chairman of the meeting and Amado Chavez as secretary.

Upon motion the following named persons were designated by the chair a committee to report suitable resolutions expressive of the sense of the meeting: W. G. Ritch, Frank Springer and Rafael Romero.

During the retirement of the committee several short speeches were made. The committee returning, made report of the preamble and resolutions hereinafter appearing at length, and which report was upon motion of Pedro Valdez, adopted by a unanimous vote.

Upon motion of L. Bradford Prince, it was resolved that the resolutions be signed by each member of the excursion party.

Upon motion of Rafael Romero, the secretary of this meeting was requested and instructed to furnish each newspaper in New Mexico with a copy of the proceedings of this meeting for publication, and also to furnish a copy of the same to each of the daily papers of the state of Kansas and Kansas City.

Addresses in conclusion were then made in well-selected words by Hon. Pedro Valdez, upon the better understanding and more cordial relations that would naturally arise in consequence of the visit to the Missouri Valley, between American citizens of the Mexican race and other Americans.

Col. Chavez, upon being called out, referred specially to the manifest advantage to the state of Kansas of its grand public school system, its normal schools for educating teachers, its institutions for the education of the deaf and dumb and the blind, and the mitigation of the misfortunes of the insane. Kansas, under her liberal educational system and institutions, had grown from the uninhabited wilderness that she was at the date of the American occupation of New Mexico in 1810, to a great intelligent commonwealth, at this time numbering over one million population, having a state organization and representation of two senators and three representatives in Congress.

THE RESOLUTIONS, as reported by the committee and adopted and signed:

WHEREAS, The Atchison, Topeka & Santa Fe railroad company through its general manager, W. B. Strong, Esq., Director Geo. T. Anthony and Genl. Freight Agent Anderson, have extended, and we, the Territorial officers and members of the Legislative Assembly and other guests of New Mexico, have accepted and are now in the enjoyment of an excursion from Santa Fe to the chief cities of the State of Kansas and upon the Missouri river, now therefore

Resolved, That we, each and all, hereby tender in return for the courtesies and hospitality of the said railroad company our hearty thanks therefor and for the pleasures and profits of said excursion.

Resolved, That our hearty thanks are likewise due, and are hereby given to the Governor and State authorities of the State of Kansas and to the citizens, municipal authorities of the cities of Lawrence, Kansas City, Leavenworth, Atchison and Topeka, for their hospitality and for their kindness in the exhibition variously of their State and local institutions, public schools and business houses.

Resolved, That we shall ever recur

to the said excursion and to the various incidents of the trip at the various cities visited with great pleasure.

TERRITORIAL OFFICERS.

W. G. Ritch, Secretary.
L. Bradford Prince, Chief Justice
Trinidad Alarid, Auditor.

LEGISLATIVE ASSEMBLY—COUNCIL.
Jesus M. Perez, Bernalillo county.
Florenio Sandoval, Bernalillo county.

Frank Springer, Colfax and Mora county.
S. B. Newcomb, Dona Ana county.
William Breeden, Santa Fe county.
Pedro Valdez, Sábalo, San Miguel county.

Tomás González, Socorro county.
Santiago Valdez, Taos county.
J. Francisco Chavez, (President) Valencia county.

Gregorio N. Otero, Valencia county.
Amado Chavez, Chief Clerk.
Jose B. Ortiz, Asst. Clerk.

HOUSE.

Rafael Romero, (Speaker) Mora county.

Mrs. Pantaleon Estes, Santa Fe.

Mrs. Ghas. Blanchard, Las Vegas.
Mrs. J. M. Davidson, Las Vegas.
Mrs. Atanacio Romero, Santa Fe.
Miss Adelaida Cheve, Sábalo.

Alta Sonora.

From all accounts, both ancient and modern, there seems to be a rich mineral belt extending from the head waters of the Gila to the Sonora line. The Jesuits, during the time they enjoyed prestige in Sonora, received accounts of this vast wealth, which have been found in the city of Arispe. Padre Alvarado has left similar documents with reference to this and other neighboring mineral districts.

This priest made five trips through this region and found the natives with whom he came in contact wearing large grains of gold about their persons. On the river Verde he found the first placers, which were rich, and from then on the pious priest turned his attention to exploration instead of carrying the cross to the untaught natives.

In the records belonging to Arispe, three of them mention as having found golden ornaments, necklaces and earrings among the Indian women who inhabited the Gila.

Other stories of wonderful finds were spoken of by Galvez and Bonifacio Daza, which was to the effect that the latter had at one time taken a lump of gold from an Indian which weighed 15 marcs and 2 ounces.

Padre Faustino González, parochial priest at Alta, believed that the gold placers situated on the Gila, contained such vast quantities, that on their discovery they would attract a great course of people, even from European nations, and thus place in jeopardy the Catholic religion; for this reason, in the year 1835, the priests in that section warned their flocks to keep the rich discoveries a profound secret.

Alvarado regarded Alta Sonora not only as a great mineral country but well adapted to agriculture and the

raising of stock, and even proposed or conceived the idea of creating a province under the name of "El Mojavi," with the boundaries: the Sierra Gila on the Sonora side, the Sierra Madre in New Mexico and the rivers Colorado and "Virgen" on the part of California. To this effect he consulted with the missionary ministers of the frontier and resolved to go to Spain and place the matter before the Court of Madrid, but he died on the route in the ancient pueblo of "Nio," eight leagues from Simioa, where his remains repose in a small Jesuit chapel, at the present date in ruins, being the only vestige of that ancient town.

Since James Gordon Bennett made his magnificent gift of one hundred thousand dollars to the Irish relief fund and made an appeal to the American people to give a gift to the suffering, worthy of this great nation money has been flowing into the Herald office at the rate of ten thousand dollars per day. It is thought that the Bennett fund alone will soon reach the magnificent sum of three hundred thousand dollars.

The Cleveland Irish societies, after a long debate on the mooted question whether they would parade on the 17th of March, or use the money for Irish relief, came to the conclusion to parade as usual, but make a liberal contribution as well.

The Southern Pacific is being built eastward at the rate of about a mile and a half per day.

For Fresh Bread, Pies, Cakes and Yeast, go to the Las Vegas Bakery. P. M. Jones, Proprietor.

I am now prepared to accommodate boarders at low rates at the Las Vegas Bakery and Restaurant. For terms, apply to 179-lw. P. M. Jones, Proprietor.

Wanted.

A first class cook, none need apply unless well recommended. Apply at residence of MIGUEL A. OTERO. 177-lw.

For fine Liquors Native Wine, Tolu Rock and Rye, wholesale and retail at cash figures go to M. HERRERA on the south side of the plaza. 170-lf.

St. Louis as a Manufacturing Center.

THE PITTSBURG OF THE WEST.

(From the Globe-Democrat, Jan. 17th, 1880.)
The facilities possessed by St. Louis for the development of the iron and steel industry are well known, and begin to be appreciated as the glare of numerous furnaces which brightly illuminate the sky fully attests. But the importance of the industry of this Pittsburgh until recently held almost undisputed sway, has steadily but steadily been growing in our midst. Within the manufacturing of glass and glassware, which look like rival Pittsburgh.

The Mississippi and Libell Glass Companies of this city have constantly added new furnaces to their already considerable plant, and the glass of the West and South is now supplied by St. Louis. In consequence of the large local bottling establishment in America being located here, the manufacture of beer bottles is one of the main features of the glass works. We find no objection of the St. Louis glass works to the beer bottles being made and filled in our city, chiefly for shipping and export. As all being informed that the ANHEUSER & BUSCH Brewing Company alone received more than 60 million bottles during the preceding year, that their demand was still increasing, notwithstanding the immense numbers of old bottles returned to them, their contract with the two companies for the coming year being for the delivery of ten million bottles. We were told that ANHEUSER & BUSCH stand today, but only the largest bottlers in America but probably in the world, as no bottling concern in England has had and had an equal number of bottles. This was indeed flattering news giving proof of St. Louis enterprise and energy.

The Mississippi and Libell Glass Companies are also making extensive preparations for the manufacture of all kinds of fruit jars, in anticipation of a full fruit crop, last year's crop having been a failure.

With the rapid settlement of the West and the extension of the South, the glass works of St. Louis will take a prominent place among the manufacturing of our country and not only will Pittsburgh, but will take the palm and lead in this branch of industry.

The Manufacture of Railroad Cars in St. Louis.

WESTWARD THE STAR OF EMPIRE TAKES ITS PLACE.

(From the Globe-Democrat, Jan. 4th, 1880.)
We had occasion to visit the shops of the Missouri Car and Foundry Company, and were indeed astonished at the remarkable activity prevailing in every department, and be served to

As is well known, most all transportation lines have caught unawares by the sudden business boom and general revival of trade, and were short of rolling stock to haul the immense amount of freight offered from all sides. The result was a great and sudden demand for new cars, and to supply this want the Missouri Car and Foundry Company are kept running day and night, turning out new cars with the rapidity illustrative of American enterprise and energy.

Among the orders on the books of the company we noticed one from the well-known brewers, ANHEUSER & BUSCH for 100 new refrigerator cars of an improved pattern, devised by the brewing firm, and the result of their long and varied experience with refrigerators.

It is claimed by Anheuser & Busch that their new cars will carry their celebrated beer to Eastern and Western cities without change of temperature, and the beer will be unloaded at New York and Boston, just as fresh as when drawn from their vaults and be served to their patrons in those distant cities as sparkling and bracing as the beer handed daily over the counters at Tony Paus's, the well-known resort of all lovers of the Teutonic beverage, and the cold, and the head-quarters of this brewery in our town.

Mark one more for the industry and manufacturing enterprise of St. Louis.

FOR SALE—A vineyard containing from 8,000 to 10,000 vines, from 2 to 3 years old. Will sell for cash or trade for cattle. For particulars inquire of this office or at the store of A. Grzechowski & Sohn, Pacific St. Luna, N. M.

PARA VENDER—Una villa, conteniendo de 8,000 a 10,000 plantas, de 2 a 3 años de edad. Se vende por dinero o se cambia por vacas. Para mas informacion dirigirse a esta oficina o a la tienda de A. Grzechowski & Sohn, Pacifico de Luna, N. M.

NOTICE—We, the undersigned, hereby give notice that our cheque on the Bank of Santa Fe, No. 17,000, marked No. 17, for the sum of \$10,000, in favor of Mr. J. B. Watson and now in his hands, being given him by mistake, will not be paid on presentation.

DEATH OF AN AMERICAN.

Notice.—All persons are hereby notified not to trespass on the public stock or other-wise trespass on the public stock, known as the old Pecos church grant in San Miguel Co., N. M., as all trespassers on said grant will be dealt with according to law.

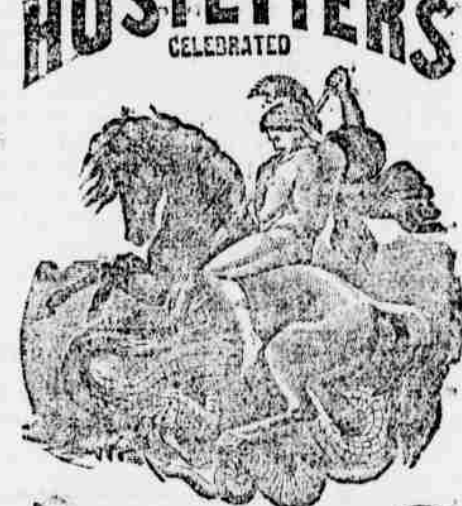

A. D. D. D. M. HENSWICK, Administrator of the estate of Frank Chapman, deceased.

Administrator's Notice.
